## Understanding Upstate New York through Funder Research

Has your foundation conducted, funded or otherwise sponsored research, issue briefs, or surveys about Upstate New York that you are willing to share with other funders in our region?

Sharing information and research that your organization has developed, funded, participated in or sponsored will help other funders understand the issues that you address, identify potential partners that share your interests, suggest new ways to address issues in other communities, and inform the work of other funders investing in your communities.

Grantmakers Forum is establishing a central resource on our website for local and regional funder studies about the economic, social and environmental state of our region. Many funders have sponsored research of interest - from the economic health of women, leadership and succession issues in the nonprofit community, service gaps caused by policy or regulatory dysfunction, to the impact of the nonprofit sector on the regional economy.

Links to studies may be posted on the public side of the Grantmakers Forum website or on the members-only site, depending on your intended audience. Information posted on the members-only pages will be accessible only to members of Grantmakers Forum. This will allow you to share sensitive information you have gathered with a smaller audience.

If you have research you wish to share, please fill out the information below and email it to:  
[gfnycmm@grantmakers.org](mailto:gfnycmm@grantmakers.org).
